Abstract

The performance of MSMEs is one of the supporting factors in the success of the economy in Indonesia which requires strong human resources support and mentoring programs from the government. This study was conducted with the aim to prove the influence of CSR and Human Resources quality on the performance of MSMEs in Pringsewu Regency. Type of research is quantitative with data collected primary data is the spread of questionnaires. The population in this study is MSME data registered on the website of the Central Statistics Agency (BPS). Samples in this study were 235 MSMEs. Data processing using SPSS program version 21. The analysis method used is validity test, reliability test, multicollinearity test, normality test, heteroscedasity test, multiple linear regression test, coefficient of determination test R², t test and F test. Based on the results of T test and F test which shows that the significant value of corporate social responsibility, quality of human resources and corporate social responsibility and quality of human resources is 0.000 where the value is less than 0.5 which means that corporate social responsibility, quality of human resources and corporate social responsibility and quality of human resources have a significant effect on the performance of MSMEs. With this research, it is expected that MSME actors in Pringsewu Regency can continue to maintain concern for the surrounding environment and maintain and improve the quality of employee development.
